

Weekly progress report			
Topic:	Chatbot – Final Project	Week No.	17
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Work Completed:

Successfully trained the chatbot again this time the training loss was low unlike the other times where it was higher than 1

Challenges Encountered:

Having to keep editing the code just for the chatbot to be fixed and wait for it to be fully trained to see if it works

Solutions Implemented:

Wait for the chatbot to be fully trained to troubleshoot it

Tasks for Next Week:

Submission of fully trained model of the chatbot functional or not
