

Weekly progress report			
Topic:	Chatbot – Final Project	Week No.	11
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

### Work Completed:

We finished selecting the title of our chatbot about e-commerce customers support and we are currently finding right datasets for our chatbot.

### Challenges Encountered:

It is hard to find appropriate datasets for our chatbot

### Solutions Implemented:

We research about places where we can find a dataset for our chatbot

### Tasks for Next Week:

Finding actual dataset for our chatbot
